Subject: **OPRA Intraday Test Data – Current Test Symbol List**

OPRA supports the dissemination of intraday test data from Participant exchanges over the SIAC multicast feeds. Exchanges will create series based on the test symbols used by CTA (CTS/CQS) and NASDAQ (UTDF/UQDF). The current list of test symbols is as follows:

CTA	NASDAQ
ATEST	ZAZZT
CBO	ZBZZT
CBX	ZCZZT
CTEST	ZJZZT
IGZ	ZVZZT
MTEST	ZWZZT
NTEST	ZXYZ.A
PTEST	ZXZZT
ZBZX	
ZEXIT	
ZIEXT	
ZTEST	
ZTST	
ZVV	
ZXIET	
ZZK	
ZZZ	
01A thru 12A	
01N thru 12N	
01P thru 12P	
01V thru 12V	
01Z thru 12Z	

1. The test series are routed like real series, and <u>are not</u> identified with a special indicator. Data feed subscribers should take necessary precautions to protect their system against any adverse impact from test data.
2. The test series are used for OPRA testing only. The Options Clearing Corporation (OCC) will not process these series. There will be no Open Interest created.
3. The test series use the same format, message category codes and type codes as live series except for category d, Open Interest.
4. The traffic associated with test series are not included in message totals reported by OPRA.
